SOMETHING NEW

No, you are not seeing miniature Arabian horses at the 14th annual Pennsylvania Livestock Exposition.

You are seeing Welsh ponies which will be competing in the Welsh Pony Division, a new division at the Exposition.

The new division was added because of interest shown in this pony breed which originated in the mountains of Wales. The breed, which comes in a variety of solid colors, is similar in conformation with Arabian horses.

We are pleased to welcome this pony breed to an evergrowing Exposition.

Another innovation at the Exposition is the combining of market and carcass classes into a single market-carcass class in which 40 percent of the animals must be slaughtered.

At previous Expositions, market barrows were not designated for slaughter with the result that it was never known how the judges' findings compared with carcass results. This year we will know.

On-Rail-Wednesday, November 11

Judges: William G. Nash, Buell Gunderson and B. D. VanStavern

The 1970 OPEN BARROW SHOW is a combination of the previous Market Barrow and Carcass Barrow Shows. The revised Show will have two divisions: namely, On-Foot and On-Rail.

All individual barrows entered in the show will first be judged by breeds in individual On-Foot classes on Monday, November 9. Approximately the top 40% of each class will be slaughtered and entered in the On-Rail classes. The definite percentage will be based on the slaughtering capacity of the plant and the decision of the superintendent shall be final.

Every exhibitor wishing to have an entry in the On-Rail Class may nominate one barrow per breed at time of weighting and this animal will be included only if no other animal of the exhibitor in that breed is automatically chosen for the On-Rail Judging.

The Grand Champion Carcass and the Reserve Grand Champion Carcass, upon being so designated, will become the property of the EXPOSITION to be used for educational and/or promotional purposes.
